

Karolina Malec

JUNIOR UI/UX DESIGNER

✉ kara.malec@gmail.com

📍 Graz, Austria

☎ +43 67764873794

Profile

I am a junior Creative User Experience and UI Designer with substantial front end programming skills. In 2022 I decided to shift my career from Architecture to UI UX Design. Architecture is knowing how people interact with their environment, making it similar to UX design career.

My passion is for all forms of digital interface and the interaction it affords between a brand and a customer. I can work with you from conception through delivery or help complete projects you have already started.
